WORK EXPERIENCE

Frontend Developer Intern | Dijicrea (İstanbul - On-site) Sep 2025 - Oct 2025 (2 Months)

- Built responsive website interfaces using Bootstrap, HTML, CSS, and JavaScript.
- Improved UI components and collaborated with the team to ensure a consistent design.
- Website link : <https://uannesfrontend.dijicrea.net/>

Software Developer Intern | Software Persona (Remote) Apr 2026 - May 2026 (2 Months)

- Gained hands-on experience in database management and SQL queries, web development using JavaScript, UI/UX design with Figma, and mobile application development for Android and iOS platforms.

Mobile Developer Intern | KaraLabs Yazılım (Remote) July 2026 - Present

- Designed modern and user-friendly mobile application interfaces using Figma, and developed mobile applications using Flutter.
-

EDUCATION

Doğuş University | 2022 - Present

- Computer Engineering | 3rd Year Student
-

PROJECTS

ClientFlow - Client & Project Management Panel (Live Demo: [ClientFlow](#))

- A full-stack client and project management panel built for software agencies using Next.js, NestJS, and PostgreSQL. Manage clients, track projects by status, monitor budgets, and visualize key metrics — all in one place.

Coffee Corner - (Github: [CoffeeCorner](#))

- Developed a modern café website using Node.js and MongoDB. The project features a stylish user interface, dynamic menu management, and intuitive navigation. Users can explore coffee and dessert offerings, view product details and prices, and interact with the business through contact and registration pages.

Car Selling - (Github: [CarSelling](#))

- This project is a web-based **Car Sales Platform** developed using **ASP.NET** and **SQL Server**. The system allows users to register, log in, list cars for sale, and send messages to the administrator. It is designed as a simple and functional car listing website.

CERTIFICATIONS

Software Persona - Software Professional Development Program (2026)

- Training in Database & SQL, JavaScript Web Development, UI/UX Design (Figma), and Mobile Application Development (Android/iOS).

Udemy - The Complete Full-Stack Web Development (2025)

- Comprehensive training in full-stack web development, covering front-end and back-end technologies, database management, RESTful APIs, and modern web application development.

Udemy - Java Data Structure and Algorithms (2024)

- Learned core data structures and algorithms in Java, including arrays, linked lists, stacks, queues, trees, sorting, searching, and problem-solving techniques.

BTK Akademi - AI Algoritmhs (2024)

- Learned fundamental concepts of artificial intelligence, machine learning algorithms, problem-solving techniques, and algorithmic thinking.
-

SKILLS

- HTML CSS JavaScript
- Java
- C++ / C#
- Python
- Node.js / NestJS
- React / Next.js
- ASP.NET
